I belong to Chicago was Marie Morton's parting as she fled the desk 'I can't help that

And I've got my trunk packed to go out to-night,' she continued

Silence

'And I'm going if it kills me.'

More silence

'And I'm going to have a lawyer if this trial goes on'

Still raising in appeal

'And I'm going to see if the police have any right to a rest here'

Last but

'If they do, I'll make it cost them a heap of

Maria Morton,' said the Court, as he threw the apple core away and wiped his chin 'do you realize that you are standing in the shadow of destruction, as it were

'I would a lawyer,' she answered

Did you realize that the blank of an awful legal chasm is at your feet, Maria

She looked down, fainted, saw blank and recoiled

'I declare I am going to Chicago to-night'

'Life is very uncertain Miss Morton We are here to try [illegible] you may be convicted in Chicago to-night, but not As it does [illegible] I may be dead before I reach there, and you may be away with me [illegible] to the dickens I think when you were prowling around last night [illegible] you knew a disturbance that the morning sun would rise on and

It took three of em to take him in [illegible] she exclaimed in tones of triumph

But it will only [illegible] you away from Grand Island one number three on the Blue [illegible] when the Maria does [illegible] and [illegible] abutting on The prisoners thirty two

'Can I go with you'

'There are four of five who you are going'

'I'll have charges for this—do you hear me'

'I'd hear it, and I'd [illegible] as body [illegible] you

'And do? Well I'll make some body [illegible] you

I can't actually put the [illegible] up Now read 90 Miss Morton and if were you I would in any anything more In a month more business [illegible] the stage, and you won't have any more of that you keep in

She clinched her hands gritted her teeth and went to [illegible] but kept mum and recalled [illegible]

Counting 'round the Maria drove around and threw with a stone house on his heel played the jew harp while the other man

An Anatomical Curiosity

Quite a novel exhibition was held at the First Colored Methodist Church last evening the performance setting at defiance three fourths of the established notions on anatomy The room was crowded and Dr George F Thomas a native of England, born in London at Shirley sixty eight years ago His weight is 300 pounds and although but five feet four inches in height he claims to add eight pounds and [illegible] after examination his well knit muscular [illegible] than even this seemingly [illegible] will not be secreted After a lecture that was quite wild rambling and [illegible] than even one of George Francis Train's short minutes, he settled down to business, and showed one or two feats of strength that were simply marvelous Taking a piece of iron [illegible] of more than an inch in diameter with [illegible] blows on the muscle of his left forearm he bent it nearly double and after having repeated the [illegible] with a similar piece of iron he twisted it into [illegible] in the same manner This exhibition however was nothing to what followed He moved his [illegible] about forty feet using that his [illegible] were solid [illegible] and that his [illegible] were [illegible] as to the [illegible] of other human subjects He displaced his ribs so that they completely covered the abdomen and then returned them to their natural position He then displaced his heart, causing it to appear in his abdomen, [illegible] about from one side to the other the singular pulsations being plainly discernible under the black skin He next showed his heart in the left side with its beatings were natural, then moved it to the left side of the abdomen, four or five inches from its natural position where the pulsations were but little felt and then from the left side to the right where, also, the beatings were distinct and natural After these he stopped the beatings of his heart for nearly a minute, the pulse in both wrists being entirely absent It is to be regretted that no medical gentlemen were present as this wonderful departure from nature might have suggested something of value to surgery and science—*Lansing's Journal*

The Domestic Police

There are some households that are pervaded with a religious "Stop that!" or "There now, don't" or "If you do that I'll whip you" The children in these households continually experience a sense of being under arrest, or an apprehension that they may at any moment be arrested The principal relation they sustain to their parents is that of the law The appearance they have with the parents is such that the same as they might be expected to have with constables or policemen It was one of these parents who stepped the festivities at a dinner party from which his children were excluded to say to the servant, "Go see what the children are doing, and tell them to stop it" It was another who habitually threatened to send her boys to the House of Refuge for being so bad These lads were neither better nor worse than others of their age, and there was no reason whatsoever why they should be sent to that reformatory institution, yet "going to the House of Refuge" became a jocose by word with them, and they would playfully go to the street door, pretending to look for the police to escort them, or for the Black Maria to carry them

The only objects seen pushed by such domestic policemen and policewomen as these are the worrying of their children and the complete acculturation of their household Children brought up on this continued diet of peevish reproof and querulousness rebuke, slow scorn and captious and irritable and eventually as disagreeable as the parental police who have worried them No child can have a very holy admiration for such a parent and if the Fifth Commandment is obeyed at all by a child so circumstanced the obedience is compulsory and perfunctory, rather than hearty and spontaneous

A child is a priceless gift from God, not only to be trained, but to be loved and enjoyed Not to be treated only as an object of discipline, but to be made and kept a friend and companion There are many people who would look with horror on the worrying of a dog or the teasing of a cat, but who habitually inflict on their children worry enough to make the poor creatures wish themselves dead and buried These people are objects of terror to their children, even as are the police It is time to reform Make the reform as thorough as possible, and the whole house will be happier for it—*Exchange*

—We have heard of enterprising journalism, but the latest report in that line caps the climax The editor of an Illinois paper got horsewhipped for a statement made in his paper. He immediately got out an extra, descriptive of the affair, and cleared money enough to pay for the arnica

Bacon's Palace of Sweets, 905 Broadway, is the place to get a box of fine home made or French Candies They are received daily, per Bacon's Express, from five of the most prominent makers in San Francisco.

Harvard is the best public business man of about one hundred thousand dollars and can effect a settlement at fifty per cent *Exchange*

This appears to be the policy of the confidence concern on Ninth street with this difference they won't pay the fifty per cent

When anybody gets over-charged on the railroad a terrible howl reverberates throughout the State from those friends of the dear public Fitch and Pickering. The other day the Telegraph Monopoly raised their rates per Atlantic cable from seventy cents to $1 20 but the public hasn't seen any mention of this fact in either of the journals conducted by these two patriots'

An indignant Idahoan assailed us violently yesterday for saying that a member of the Ninth street Confidence Company came from Idaho 'By—— said he, "I want you to understand that I came from Idaho myself, and I won't permit any such slander upon the good name of that territory Of course we apologized, and disclaime any intention of reflecting upon the fair fame of Idaho.

Previous to the completion of the direct Atlantic cable the rates of the old monopoly, which connects with the Western Union Company, for messages were one dollar per word Just before the direct cable opened for business, the monopoly reduced the rates to fifty cents per word After working about two weeks, the direct cable became disabled, when the monopoly at once raised the rates to the old price of one dollar per word None of the anti monopoly organs have made any mention of this swindle upon the people

Bismarck is commander-in-chief of the German army by divine right, but he is impressed with the idea that he can be legally reviled by the temperance organs that attack those who exhibit a Local Option tendency and call the other long-haired that and unwashed people to fight the Devil with—Water

Shades of Madame Bishop Hushell and Celestial Gibson can these things be? The organ of Local Option "organ" calling "Local Option a "bug-a-boo" Where are the silk holders Fisher and Hamilton? The ridiculous temperance people should take their "organ" in hand and close its whisky stops before it gives their cause deadly away

"General" J C Sullivan "manager" of the Oakland News has been in his present position about two months and Fairchild, in his list of creditors declares himself indebted to the said "General" in the sum of $1 266 This is at the rate of about $53 per month a pretty good salary for even so skillful a "manager" We shouldn't wonder if the Court of Bankruptcy, upon a hint from the honest creditors made some inquiries in regard to this remarkable claim before Fairchild is granted his discharge No should we wonder if some of the General's creditors should want a small interest in that $1,266 There will probably be some fun when these two worthies come to testify under oath in the Court of Bankruptcy

The Sacramento *Record Union* sums up the Pinney defalcation matter in a sensible manner After referring to the system adopted in regard to furnishing Government supplies, the paper referred to says

Pinney was in the habit of exacting ten per cent commission from honest merchants who furnished him supplies, and (as in all such cases) it is intimated that some of those who paid him such commission will swear and testify to the fact It is as well understood out-side of Pinney's own family as if he (a dealer and collector) actually have said it and such a contract it will pay him and the merchant agrees to the terms, although he knows that it is wrong, the Government and that he has no right to demand any commission Why does the merchant agree to this We answer—and it is the key to all political interests—because he can make it up in selling to the Government in the form either by furnishing a less quantity or worse quality than the contract calls for Now some of these commissions of 10 to 40 per cent and upwards make the legitimate profit upon a contract honestly fulfilled and this is the reason that it stands to reason that the man who pays 40 per cent of the Pinney stripe for contracts is quite willing to plunder the Government in addition Again it is well to realize that the Pinneys could not make this system work if they did not encounter a very ready and general acquiescence among business men and even if the criminal success is probably of little use to expect purity in office while corrupt means and chicanery are regarded as part of the working capital of so many enterprising individuals

The Council, upon the recommendation of the City Attorney refused to ratify the bond of the Ninth street Confidence Company because it was defective The Attorney is responsible for any defects, as he drew the bond and presented it to the Mayor But how is it about the "Company that is a party to the bond? Isn't that defective, too? And if so, why not say so at once? Is the City Attorney in "cahoots" with the confidence game that the Ninth-street Company is trying to play? The amount of the business is the whole thing is a fraud There is no such incorporation in legal existence as the "Oakland News Publishing Company The City Attorney ought to know this If he does not, let him interrogate Rev Mr. Hamilton Mr Fisher, or any of the other stockholders, beside President Fairchild and his "manager" The Council cannot make a contract with an imaginary Company, and it must throw out the bid which the pap Sullivan presented

"FREEZED OUT"

Parson Fitzgerald recently delivered an electioneering address before the Sonoma County Teachers Association, in the course of which he gives some useful historical facts and much valuable advice in relation to our common schools and the difference in character of our teachers Among the pithy expressions of the very learned D. D, the following sample is all that we can find space for at one time

Let the Trustees give the teacher cordial sympathy and support, and let all those teachers who teach only for the salary and aim merely to comply with the letter of the school law, be *frozen* out of the profession and kept out.

This scholastic dictum should be submitted to the earnest consideration of the primary class in English grammar of our city schools as a useful exercise.

Where to Go.—If you wish to hear superior music, and indulge in a glass of beer, go to the Turnverein Hall, 473 Eighth street There is no better place in town All kinds of wines, liquors and cigars Beer, 5 cents An elegant Stiffel orchestrion has just been put in.

LADIES' HAIR DRESSER.—Miss Cockrell, Room 21, Central Block, over Echrieber's furniture store, has always on hand a large stock of hair. Weaving curling and combing done on short notice Ladies attended at their residences.

Who Wants a Good Buggy?—Any one wanting a good, No. 1 buggy to purchase, can find a bargain by calling at Judge Lazelle's office, Eleventh street.

INDEPENDENT JOURNALISM.

The boast of independence, especially in journalism is generally proof of a lack of it. Most of those papers which are so continually iterating and reiterating about their independence, show by their course that they are the veriest slaves, in fact Indeed they demonstrate this by the very persistency with which they endeavor to conceal their chains In this country, quite a number of papers have clothed themselves in the spotless livery of Independence, to better serve their devilish purposes Politically these journals are "independent" because they have been unable to get in some political party or office If the public would—and as a general thing of late the public does examine into the motives which control the course of these papers, it will be found that their "independence" is only skin deep. To illustrate Frank Pixley went to Sacramento to run the Republican Convention He didn't succeed as a manipulator It was time for one of his periodical "spells," and he "slopped over" This converted De Young into a respectable Independent It mattered not how much it stultified its if the *Chronicle* must show its "independence" Fitch and Pickering also have assumed dictatorial powers in every campaign since they got control of their two paper both daily This has kept them in a continual state of "independence" They have maintained a policy independent" of everything that clashed with the private interests of the publishers of the *Call Bulletin*—and they are notably independent of principle They contracted the railroad *rabies* of the Sacramento *Union*, having inoculated themselves from the corruption which caused the *Union's* death They are frequently thrown into fits, but they are perfectly harmless and injure only themselves There are several lesser lights in journalism, such as the San Jose *Mercury* and the Ninth-street confidence concern in this city, which up with indifferent success the big "independent" journals But there is another class of genuine independent journals which make no boast of their freedom—their straightforward, outspoken course renders it unnecessary for them to call special attention to their independence This latter is the press which wields the most power in the land It is not necessary that they should put themselves wholly outside of party lines—indeed the secret of their power is in the fact that they represent party principles without acknowledging party allegiance This is the press which professional politicians fear and respect, and it is this class of independent papers that lead public opinion The independence of thought which characterizes so large a portion of our voting population, and which with every year, takes larger, scope has given birth to and sustains these truly independent newspapers

CITY COUNCIL.

The Grading and Opening of Streets—The Municipal Finances—A Defective Bond Offered—Petitions and Protests Presented.

A regular meeting of the City Council was held last evening Present—Messrs Shanklin, Dods, Ford, Pardee, Huntington, Miner and President Everson

The following bills were allowed W L. Hardy, $129 07, TRIBUNE, $20; Geo J. Hood, $179 20, Butler & Stilwell, $111 50; *Transcript*, $3 50, James Leavell, $90 25, Geo J Hood, $27 60, Geo E Sherman, $28 02

STREET COMMITTEE REPORTS

The Street Committee reported favorably on petitions for the grading of Harrison street, for a sewer in Charter street, for a sewer in Fourth street, and for plank sidewalks on Wood and Willow streets, and for permission to John W Pearson to lay a water pipe in Wood street

The same Committee presented two reports in the matter of the opening of Commerce street The majority report set forth that they find the proceedings of the Commissioners are legal and the assessment in accordance with law. They recommend that an ordinance be passed levying a tax The City Attorney also gives a similar opinion The minority report of the Committee, from Mr Shanklin, is adverse to the report, "for the reason that said Commissioners have not included in their assessment for benefits all the land shown on the map made by the City Engineer and so adopted by the Council, affected by the proposed street That in the opinion of their attorney, the Commissioners had no discretion after the adoption of said map by the Council but were bound to assess the land within the boundaries designated on said map as the land to be affected"

The Fire and Water Committee reported favorably on the petition for a hydrant at the corner of Fourteenth and Grove streets The Committee recommended the acceptance of the bid of Carl & Co, for sale of lots 17 and 18 in block 40, for an engine house, for $2,000

The Committee on Removals and Obstructions reported having granted permits to remove certain trees

HIGHWAY IMPROVEMENTS

A communication was received from the City Engineer asking the consent of the Council to substitute earthenware concrete pipes instead of cement pipes in the main lake sewer, the contractors agreeing to make no extra charge in the change A resolution was adopted consenting to the change

A resolution was presented for the adoption of the majority report (referred to above) of the Street Committee in the matter of Commerce street

Mr Shanklin opposed the adoption of the resolution, believing that the proceedings had not been entirely legal, and that the matter would have to go into the Courts. The map of the engineer of the land to be benefitted by the proposed improvement shows the watershed of a large extent of land, only a portion of which has been assessed by the Commissioners As the sewer in the proposed street would drain the land included in the water-shed, all the land would be benefitted and all should be assessed There were also three lots belonging to Larue sandwiched between other lots which were assessed, while Larue's were not

A A Moore appeared on behalf of certain parties interested, in support of the report of the Commissioners, claiming their proceedings to be legal

Mr Shanklin called for the petition for the improvement, to ascertain if some persons whose names were upon it were owners of land affected

The Chair declined to go back to the petition, and the question of adopting the report of the majority of the Committee was voted upon and adopted, Mr Shanklin voting no

Bids were opened for work on Fourth, East Sixteenth and Seward streets Referred to the Street Committee

Action relating to the appointing of Commissioners for the opening of Market street was postponed until the next regular meeting

Of intention to order a sewer in Fourth street, from Clay to Jefferson streets

Ordering the grading, curbing and macadamizing of San Pablo avenue from Fourteenth street to the northern charter line

Ordering the macadamizing of East Fifteenth street, from Ninth to Twelfth avenues

After some new bills were presented, read and referred to the Finance Committee, Council adjourned for one week

MURRAY TOWNSHIP.

Items from Livermore and Vicinity

The Livermore *Lode pioneer* of last Saturday furnishes the following

Last Tuesday the Central Pacific Railroad Company carried away from this station 250 tons of wheat three car loads of wool and two car loads of general merchandise

The vegetable crop in the vicinity of Pleasanton, this season, has been unusually large The yield of potatoes corn, squashes melons carrots and onions, is much larger than at any previous season

Mr Low has eight or ten acres of hops on Black's ranch near Pleasanton, and the season has demonstrated that they can be made a large paying crop here They are said to develop early and grow fast in this section

The farmers in the vicinity of Sunol are preparing for early plowing as the weather signal indicates a heavy winter Many are gathering in large quantities of straw and making arrangements for a bright and prosperous harvest next year

The Livermore Spring Water Company received early this week their fine steam pump and works for hoisting water from the low to the upper reservoir When it is placed in position and in working order we will have not less than forty two feet of fall upon our streets

It is expected that the steam hoisting works at the Livermore Coal mine will be started up on Monday Nothing has been half done about the mine and when machinery is started up we may look for a continuous supply of excellent coal to the market

The grain warehouses at Sunol are all full and many have been compelled to ship to San Francisco and other points for storage If present indications continue, more buildings will be required to accommodate our next year's harvest More land will be farmed to grain the coming season than was done last year

A Pleasanton correspondent writes as follows Sam Martin and H O Weller are the champion coon killers of Murray territory They with the assistance of Martin's dogs, caught four in one night of last week It is rumored however that Sam put a job on Weller—having caught the coons, several nights previous, and staked them out and when Weller came to hunt, he sent the boy ahead to untie.

PROF. CARR ON VINTICULTURE.

Testimony of a University Student and a Synopsis of the Professor's Lectures.

EDITOR TRIBUNE I send you a synopsis from my note book of Dr Carr's lectures to the Agricultural class on Wines and Wine Growing Dr Carr treated these interests as of great importance In the lectures on Agricultural Chemistry we were made acquainted with the processes of wine manufacture, and all the classes were taken to San Francisco by the Professor to the manufacturing establishments to see those on a larger scale I have no doubt Professor Carr would permit his instructive lecture on the History of Grape Growing in America to be published It was one of the most interesting in the course I take the liberty to write, this seeing the statements made in some of the newspapers charging him with unfriendliness to the grape-growers and wine makers Every student, who enjoyed his instructions, knows that this is false

Following is the synopsis of Professor Carr's lectures on Viniculture in the University of California in the Summer term of 1874 above referred to Commercial Importance of this Industry History and Vegetable Physiology of the Vine, Soil its Preparation and Constitution Artificial Soils Ideal and Empirical Soil, Inorganic Chemistry of the Vine, Organic Chemistry of the Vine Propagation, Pruning Best Varieties of Grapes for Wine, for the Table for Raisins, Viniculture in California its Success, Prospects etc, Principal Vineyards and Wine Manufactories Enemies of the Vine A STUDENT OF '74

Deserved Compliment.

The *News Letter* of last Saturday has the following The new Oakland ferry slips, located as they are in the most central portion of the city, and accessible by all the street railroads, add greatly to the convenience of the traveling public The Harbor Commissioners and their engineer, Mr T J Arnold who planned and superintended the construction of the works, deserve great credit for the thorough and skillful manner in which this important improvement has been executed And Mr. Arnold's work needs to be strong indeed to withstand the continual punching administered by that elegant steamer and efficient battering ram the *Oakland*

THE SCHOOL IMBROGLIO.

Some More Interesting Facts Gleaned—What Prominent Parties Have to Say.

The interview with several members of the Board of Education, which was published in the TRIBUNE last evening, was read with much avidity by the public in general and it evidently caused the action of the Directors to be more thoroughly criticized than ever before

THE RESIGNATION

The following is the resignation of Miss Phelps as presented to the Board at its last meeting

[illegible]

This was accepted and Miss Allen was elected to fill the vacancy as before stated

PRESIDENT OF THE BOARD

This morning a representative of the TRIBUNE called upon Dr R J Cole the President of the Board and asked him whether he had any thing to say in relation to the matter which has already caused so much comment He replied No nothing But other questions being put he became communicative and pleasantly answered all interrogatories The substance of his remarks were that so far as he was concerned he had no sectarian bias which would influence him in the selection of the teachers and he thought the same was applicable to nearly if not all the members of the Board He believed that much of the trouble was due to Mr Hamilton who wanted to raise a disturbance So far as crowding Mrs Phelps out of her position nothing of the kind was contemplated on the contrary it was decided to retain her services and the giving of a class to her was partly on the grounds of economy He thought the lady in question had come a rebellious spirit We shall see the Doctor's explanation joined and called upon Mrs Phelps for her side of the story

THE LATE RESIGNATION

It is fully expressed herself as to being placed in a position against her will and was loth to have her name appear too prominently before the public She made reference to the statements of some of the Directors as disclaiming any rebellious spirit whatever Several years ago she taught a class when neither it nor the school in general was so large as it is now She kept it two years and the Directors thinking that the labors were too much reduced her of it Then a reduction had been taken without consulting her as to her ability to assume the extra duties and when she found out that in the columns of the press that they had been assigned, she was greatly surprised It was her opinion that both policy and courtesy ought to have suggested to the Directors that a conference should have been had in the subject before any decisive action was taken For if remove the position had been given to her without any increase of pay while some other principals were getting $1 and $200 If a salary was $100 and she had received no assurance that it would be increased But aside from monetary considerations she felt that she was not equal to the burdens she took and so far as economy was concerned she regarded the late movement as a very impractical one especially as there were other channels in which retrenchment can be effected if it be necessary to curtail expenses

The Board will hold a meeting this evening at which it is not at all improbable that quite a stormy session will ensue

Building and Loan

ASSOCIATION

Of Alameda County, Oakland, Cal.

Incorporated, July 21st, 1875

Capital Stock, $250,000,

Divided Into

1,250 Shares of $200 Each.

OFFICERS:

OFFICERS—President, Mack Weber; Vice President, H. W. George; Treasurer, Joseph Bechtel; Attorney, J. R. Glascock; Secretary, George George.
FINANCE COMMITTEE—P. A. Murphy, M. G. King, Dennis Searby.
TRUSTEES—Mack Webber, P. A. Murphy, P. Bradley, Wm. Bailey, H. W. George, M. G. King, A. D. Pryal, Dennis Searby, George H. Chick.

OBJECTS.

The objects of this Association are to raise funds in shares, not to exceed $200 each, payable in periodical installments; and to make loans to its members for the purpose of aiding them in acquiring or improving real estate.

ADVANTAGES.

This Association offers better inducements to shareholders than any other corporation of the kind on this coast.
No shareholder can own more than 25 shares, and each shareholder can have but one vote.
No money loaned outside of the membership of the Association, and for no other purpose than acquiring or improving homesteads.
No shareholder is entitled to a greater loan than his shares represent at $200 per share.
Each borrower gets a reatement of interest every twelve months.
Payments for stock are made in installments of 50 cents for each share, on the second and fourth Mondays of each month; fines and forfeitures being provided by the rules for failure in such payments.

Interest in all cases 7 3-10 per cent per annum, being 2 cents per day on a $100 loan, and only 20 cents per day on a $1,000 loan,

Enabling every shareholder to be his own landlord, and in a few years own his own home, with less average monthly outlay than his ordinary rent.
The shareholders elect their own Treasurer, Secretary and Attorney, besides the Trustees.
Meetings of Trustees open to all shareholders, and all loans made in open meeting to the highest bidder.
No snap judgment foreclosures; ample provisions being made for death, sickness, or other inability.
No officers except Attorney and Secretary receive fees from the Association, and the Association has no rent to pay; hence expenses are comparatively insignificant, and all the profits go to the shareholders.
A large part of the stock is already subscribed and within two weeks it is expected the entire stock will be taken and almost immediately the matter bring a premium.
Subscription books at the drug store of W. D. Conard, corner of 13th street and 13th avenue, Brooklyn, and at the office of the Association, at all hours of the day.

REDUCTION IN GAS.

Important to Landlords and Gas Consumers.

SAFETY AND ECONOMY.

OFFICE OAKLAND GASLIGHT CO., February 1, 1875.

IN PURSUANCE OF THE POLICY FOLlowed by this Company since its formation, viz.: to lower its rates as rapidly as is warranted by the growth of the city, the price of gas will be reduced on the

1st Day of March Next

—TO—

$4 25 PER 1,000 CUBIC FEET.

Considering the value of coal and labor, the limited use of gas, and the distance between the places of consumption,

Oakland will be the most cheaply lighted city in the Union.

This price will leave no valid excuse for the use of any illuminant but Coal Gas, along the lines of the Company's mains, a large part of which are now, and have been since they were laid, unproductive of income.
The advantages to be reaped by the public from Cheap Gas are—
1st.—A daily saving in the cost of one of the necessaries of life.
2d.—A decrease in the number of destructive fires caused by the use of the volatile distillates of petroleum.
3d.—A saving of human life by substituting stationary lights for brittle lamps.
4th.—The most convenient and safest light brought within the means of the most economical household.
However small the house, the economy will be great. If insured, the rate of premium will be lessened if not insured, the risk of loss will be decreased.
This reduction can only be profitable to the Company, by the accession of a sufficient number of new consumers to compensate for the lessening of the present receipts; and it will become the interest of all consumers of gas, to induce their neighbors to adopt this light, in order that further reductions may be made in the future.
The attention of consumers is also directed to the use of gas for heating and cooking. In Europe and the Eastern cities it has been adopted to a great extent, and its use is constantly extending.
It is to be hoped that this movement will be accepted in the spirit which has inspired it, and which has always characterized the Company, viz.:

That the Interests of Consumers and the Company are Identical.

The Company are constantly advised of all changes in modes of manufacture and distribution, and will at all times avail itself of any real improvements which tend to improve quality and lessen price.
V. L. EASTLAND,
Superintendent.

The Speakership.

The Atlanta (Ga.) *Herald*, a Democratic paper of influence in its section, discusses at great length the question of the Speakership, thinking it probable that the selection will be made from four prominent candidates, whom it names, these being Fernando Wood and S. S. Cox, of New York; Samuel J. Randall, of Pennsylvania, and M. C. Kerr, of Indiana. The *Herald* expresses some surprising opinions, closing its article as follows:

"By universal consent Mr. Kerr is recognized as one of the ablest debaters and most accomplished orators that has been in Congress since the war; and for industry and close attention to business he has never had a superior in the history of American legislation. As a parliamentarian and an efficient co-laborer in the great principles of free Government represented by the Democratic party, he is the peer of either one of his competitors. He represents a constituency of farmers, and not a constituency of bondholders, national bankers, railroad monopolists, and high tariff men. Consequently, if elected Speaker, Mr. Kerr would not likely organize the Committees of the House in the interests of anyone of the oppressive abomination, but each and every great interest of the whole country would be guarded and protected, not as heretofore, at the expenses of those who cultivate the soil and pay the taxes. The legislation of Congress, during and since the war, has been almost exclusively in the interests of railroads through the public lands, bondholders, national banks, iron-mongers and manufacturers of the North. And yet these varied interests pay not one cent of revenue into the public treasury. The gold receipts from imports have gone into the pockets of the non-taxable bondholders as fast as collected, and the hundreds of millions collected on manufactured tobacco, raw cotton and whisky, products almost exclusively of the West and South, have been annually disbursed for the improvement of the rivers and harbors, and the erection of palatial custom-houses and postoffices in the cities and small towns of the Eastern and Middle States, and to pay the salaries of 80,000 office-holders. The great producing interests of the West and South, therefore, demand relief from the burdens of Congressional legislation, and this object can be more easily accomplished by the election of a statesman like Mr. Kerr to the Speakership than by any other means at the present time. The opposing candidates for the Speakership come from New York and Pennsylvania, the home of tariffs and monopolies; hence, cannot have that sympathy and feel that interest for the planter and farmer like one who is an honored representative of that class."

Centennial Patriotism.

"Is you gwine down to dat meetin' at de church to-night?" asked Si when he met Pete at the Kimball House corner.
"What meetin' is dat?"
"De cents-tenyal meetin'."
"Is dat some new-fangled kind of protracted meetin' day's gittin up 'round lyar?" asked Pete.
"No, you ignant nigger! Dis lyar is a meetin' about de celebration o' de Fo'th of July Indemancipation Declyrashun next year at Fillimmudelphy, and dey calls it de cents-tenyal, kase all de niggers isn't suspected to gib mor'n ten cents for'ds de expenses?"
"No, dis nigger ain't gwine, kase dats some more ob dat tomfoolishness what swindles a nigger on sibil rites, and gits 'um into dese lyar inskurreptions! I'd rudder spend my dime for a prize-box wid a tin brestpin in it. I would!"
Si thought a minute and then said:
"I 'believe you's got me on de hip, Pete!"
And they both went their ways.

—Two sons of the Emerald Isle paid a visit to Fairmount Park, Philadelphia, recently. They visited the water works. Looking on with amazement at the great turbine wheels while in motion, one exclaimed to the other: "Faith Pat, the Americans must be quare people; they must have their wather ground before they can drink it."

—"One of the most curious things," remarks the *Beeville*, "connected with the atmosphere of Austin is the remarkable shrinkage which cord wood undergoes if left exposed to the night air."

Notice.

CONSUMERS OF WATER FOR IRRIGATION purposes are invited to notice that the supply of water is so rapidly diminishing, that it will be absolutely necessary to limit the use of water for irrigation purposes to twice a week, and in order that as we may be a good supply, or in fact, to divide the city into districts, and give to each district certain days for irrigation. The following plan has been adopted, and it is hoped that consumers will aid the Company in carrying out the necessary measures:
First District—All that part of the city south of Fourteenth street and east of Market street, on Tuesday and Friday.
Second District—All that part of the city south of Fourteenth street and east of Market street, on Tuesday and Friday.
Third District—All west of Market street, Wednesday and Saturday.
It is thought that the increased force of the water received by this plan will render its use far more satisfactory and effective.
Consumers are cautioned against the use of water at night, and are particularly requested to keep all their water fixtures in good order.
Respectfully,
O. HIGER, Cashier
